Advanced Learning Report

Dr. Brown presented the Advanced Learning Updates (Exhibit A), the Advanced Learning FY24 report (Exhibit B) which included a breakdown of activity and initiatives for each of the programs, and the Quad Chart report (Exhibit C). She asked the committee to give her feedback on the information they would like to receive, how they would like it reported, and what is most beneficial to them. Dr. Brown explained that a lot of the programs are grant funded and the cycles vary. The time periods are not the same as IALR's fiscal year.

Focal points from the reports included:

- New Grant Award - \$238,415 from AmeriCorps for the Dan River Year (DRY) program
 - New Grant Award - \$250,000 from the State Council of Higher Education Virginia
 - Pending Grant Applications
 - Personnel Updates
 - Internships
- **Apprenticeship**
Dr. Brown stated that a lot of the work centered around apprenticeships is due to Caesars. All subcontractors for Caesars are required to have a registered apprenticeship program. Southside Mechanical Systems signed on two apprentices for plumbing and Blair Construction has a carpentry apprenticeship. Whiting-Turner, the contractor for Caesars Virginia in Danville, refers all subcontractors to the Advanced Learning department to inquire about how to set up a registered apprenticeship. The Virginia Gaming Commission put in the requirement as part of the negotiation process with Caesars. Dr. Brown added that apprenticeship is a form of work-based learning.

The narrative report included detailed information on all of the programs and activities supported by the Advanced Learning Department.

Open Discussion of Concerns, Issues, and Observations:

No concerns, issues, or observations were discussed.

Adjournment
